# e.m.baby Industries

e.m.baby Industries is the suppliers of metal roof and wall panels for residential, post frame, commercial, and pole barn buildings. Through a wide network of manufacturing facilities and distributorships, e.m.baby is able to provide metal building solutions for all projects.

Tison draws significant product development and distribution strength, providing desirable products that customers can count on for years to come.

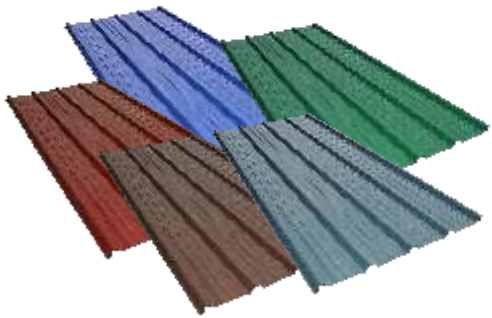

curve profile

colours avilable

long life than anything

## quality policy

Seasons's sustainable metal roof and wall panels are durable and provide a long life expectancy that benefits both building owners and the environment by lowering the demand to produce replacement systems.
